EXPERIENCE

HEALTHSPARQ
Web Application Developer
Portland, OR

August 12 - Present
As a senior member of the UI Development team, I am responsible for authoring our UI applications, creating and enforcing team code standards, organizing team code review sessions, delivering advanced training to our team members, and architecting core components of our shared UI library.

COPIOUS
Interactive Developer & Designer
Portland, OR

March 10—July 12
Worked as a member of the engineering & creative teams to translate visual web design mock ups into coded, functioning web experiences. Worked with back-end developers to coordinate code-handoff and integration into complex site frameworks (e.g. Ruby on Rails). Development lead on all CMS-based projects (e.g. ExpressionEngine, WordPress).

GEOLOGIE
Front End Web Developer & Designer
Portland, OR

September 09—February 10
Worked as a member of the design team to translate visual mock ups and layouts of websites into functioning coded web frameworks. Also assisted with the creation and design direction of the visual elements of web sites for clients.

ID BRANDING
Associate Designer
Portland, OR

June 08—January 09
Recruited by the agency's principal three months prior to graduation and began work immediately after commencement. Worked collaboratively as a member of the Creative department assisting with client projects focusing on Brand Identity & Brand Culture. Worked exclusively on a variety of print & interactive projects, interfacing directly with clients.

EDUCATION

OREGON STATE UNIVERSITY, CORVALLIS, OREGON
Bachelor of Fine Arts in Graphic Design, Class of 2008
Recipient of City of Tualatin Technology Scholarship

208 STUDIO
Designer
OSU Art Department
Corvallis, OR

Sept. 07—June 08
One of ten competitively selected student designers working in a fully functioning studio which handles print, web and motion graphics projects for non-profit clients both within OSU and throughout the Willamette Valley, including an organization promoting women's health care. Helped in developing branding and identities, Web sites, multi-page publications, posters, and a variety of other projects in a collaborative setting.
